**A COMPENDIUM
OF
AVERAGE SUPPORT PRICES,
AVERAGE PRICES TO FARMERS,
AND
AVERAGE MARKET PRICES
BY SELECTED FARM COMMODITIES
1933 TO DATE**

UNITED STATES DEPARTMENT OF AGRICULTURE
Agricultural Stabilization and Conservation Service
Data Management Division

December 1968

**United States
Department of
Agriculture**

National Agricultural Library

This summary is a compendium of National Average Support Prices, Average Prices to Farmers and Average Market Prices by commodity for selected commodities. The support prices and average prices to farmers were taken from the ASCS Information Division Fact Sheets. The average market prices used are those reported officially by Consumer and Marketing Service, Statistical Reporting Service, or Economic Research Service. Insofar as possible, market price data supplied by C&MS, SRS, and ERS were prices for the principal classes or grades of commodities at the leading markets or f.o.b. points near the areas of production. These prices are intended to reflect the amount received from the sale of the bulk of these commodities at these locations during the applicable years.

Summary of Average PricesCorn--Continued

Footnotes

- 1/ No sales reported. (O.P.A. base price of 107.0 cents effective April 14, 1943; new base of 116.0 cents effective December 6, 1943.)
- 2/ Commercial corn-producing area only. Level outside the commercial area was 75 percent of the level within the area, except 1956 when it was 82.5 percent and 1957 when it was 70 percent of parity.
- 3/ Support price for farmers who complied with acreage allotments in 1956 - \$1.50; 1957 - \$1.40; 1958 - \$1.36.
- 4/ Support price for corn per bushel in the commercial area produced by farmers who did not comply with acreage limitations in 1956 - \$1.25; 1957 - \$1.10; 1958 - \$1.06.
- 5/ Total price support.
- 6/ Includes price support payments, per bushel, in 1963 - \$0.18; 1964 - \$0.15; 1965 - \$0.20; 1966-68 - \$0.30.
- 7/ Includes price support loans, per bushel, in 1963 - \$1.07; 1964 - \$1.10; 1965 - \$1.05; 1966 - \$1.00; 1967-68 - \$1.05.
- 8/ Season average price including the price support payment averaged to reflect total production in 1963 - \$1.19; 1964 - \$1.23; 1965 - \$1.24; 1966 - \$1.40.
- 9/ Preliminary.

Summary of Average PricesUpland Cotton, Middling 1-inch--Continued

Footnotes

- 1/ Prior to 1961 price support was based on 7/8-inch Middling Cotton. Support prices have been converted to Middling 1-inch to make them directly comparable.
- 2/ No price support available in 1936.
- 3/ In 1959 and 1960 producers could elect to: (A) grow their crops in compliance with their regular upland cotton acreage allotment and be eligible for full level of support price (not less than 80 percent of parity), or (B) increase their upland cotton acreage as much as 40 percent over the regular farm allotment and be eligible for price support at a level 15 percent of parity less than the level available under Choice A. (1959 - 28.40; 1960 - 26.63.)
- 4/ Total price support per pound.
- 5/ Price support payment per pound in 1964 - 3.50 cents; 1965 - 4.35 cents; 1966 - 9.42 cents; 1967 - 11.53 cents; 1968 - 12.24 cents.
- 6/ Price support loan per pound in 1964 - 30.00 cents; 1965 - 29.00 cents; 1966 - 21.00 cents; 1967 - 20.25 cents; 1968 - 20.25 cents.
- 7/ Average market price at Memphis, Tennessee.

Footnotes

- 1/ Support prices and payments are for marketing years beginning April 1 for the 1955-1962 period, and 9 months, April 1 to December 31, 1963, and calendar years beginning 1964.
- 2/ Prices for 1938-1956 and 1964-1967 are calendar year prices; prices for 1957-1962 are for April-March marketing years; price for 1963 is for the period April-December.
- 3/ Payment rate for mohair is expressed as a percentage and is applied to each producer's dollar returns from the sale of mohair. For example: under the 1967 program, producers received \$86.80 for each \$100 received in marketing mohair.
- 4/ No price support program in effect, 1933 through 1937 and 1940 through 1949.
- 5/ Not applicable since no Government payments were made.
- 6/ Not compiled for these years.
- 7/ Preliminary.

Peanuts--Continued

Footnotes

1/ Prior to 1941, CCC made nonrecourse loans to peanut cooperatives to finance purchase, storage, and the diversion or sale of farmers' stock peanuts by cooperatives to facilitate a surplus removal program of the Department. These loan programs were in effect from 1937 through 1940.

Beginning in 1961, a deduction from support prices for estimated storage, inspection, and associated expenses was eliminated. From 1956-60, this deduction was \$9 per ton.

2/ No price support program in effect, 1933 through 1940.

3/ Preliminary.

1/ Net returns from beet sugar are gross returns minus excise tax, delivery and other marketing expenses as defined in the beet purchase contract. Excludes returns from by-products. 1916-22, Tariff Commission Report on sugar, July 31, 1924; 1925-28, Agricultural Marketing Service.

2/ Basic payment. Includes growers' share in by-products where purchase contract provides for such sharing, but excludes allowances for hauling, pitting, siloing, etc. 1916-34, Agricultural Marketing Service.

3/ Total payment. Breakdown between payments for sugar and deficiency not available.

4/ Includes Commodity Credit Corporation payments amounting to \$1.36 in 1943; \$2.87 in 1944; \$2.15 in 1945; and \$1.30 in 1947 (Table).

5/ In addition, processors received an average of 47 cents per 100 pounds of sugar from CCC to compensate them for the difference between the actual net returns realized and the net returns required to return to growers the "price support" level for the 1947 crop (Table).

6/ Preliminary.

^{1/} Season's average price for Florida raw sugar is based on periods corresponding generally with months during which raw sugar is marketed.

^{2/} 1930-31 to 1936-37, "Sugarcane for Sugar and Sirup," Agricultural Marketing Service, U.S.D.A., February 1941.

^{3/} Total payment. Breakdown between payments made for sugar and deficiency not available.

^{4/} Reflects sugarcane produced from acreage in excess of proportionate shares.

^{5/} Less than 0.5 cent.

^{6/} Includes Commodity Credit Corporation payments amounting to \$0.26 in 1944 and \$1.21 in 1945 (Table).

^{7/} Estimated.

NOTE: Information obtained from Sugar Statistics, Vol. II (1968)

Growers returns per ton of sugarcane produced for sugar, Louisiana

Crop year	Basis of payment 1/		Processor payments 2/		Sugar Act payments		Total
	Raw sugar per pound	Molasses per gallon	Sugar	Molasses	Sugar	Abandonment & deficiency	
	Cents		Dollars per ton

Summary of Average PricesWheat--Continued

Footnotes

- 1/ For 1955 through 1963 crops, support outside the commercial area was 75 percent of the rate reflecting the U.S. average level.
- 2/ Computed by weighting selling price by number of carlots sold at these markets--Chicago, Minneapolis, Kansas City, Omaha, St. Louis, and Duluth.
- 3/ No price support program in effect, 1933 through 1937.
- 4/ Total price support \$2.00; price support payment \$0.18; price support loan \$1.82.
- 5/ Blended average price to program participants, reflecting National average price received by farmers and marketing certificate value averaged for participants total production for the years 1963 - \$2.03; 1964 - \$1.80; 1965 - \$1.79; 1966 - \$2.22 and 1967 - \$1.87.
- 6/ Support price for wheat used for domestic foods \$2.00; domestic market certificate values 1964 - \$0.70, 1965 - \$0.75; export marketing certificate values 1964 - \$0.25, 1965 - \$0.30; price support loans 1964 - \$1.30, 1965 - \$1.25.
- 7/ Support price for wheat used for domestic foods 1966 - \$2.57, 1967 - \$2.61, 1968 - \$2.63; domestic market certificate value 1966 - \$1.32, 1967 - \$1.36, 1968 - \$1.38; price support loan \$1.25.

Summary of Average PricesWool--Continued

Footnotes

- 1/ Support price and payments are for years beginning April 1 for the 1955-62 period, the nine months beginning April 1, 1963, and calendar years beginning 1964. Prior to 1955, wool prices were supported through loans or purchases, generally for the marketing year beginning April 1.
- 2/ Payment rate for shorn wool is expressed as a percentage and is applied to each producer's dollar returns from the sale of wool. For example: under the 1967 program, producers received \$65.80 for each \$100 received in marketing wool.
- 3/ No price support program in effect, 1933 through 1937 and 1940 through 1942.
- 4/ Not applicable, since no Government payments were made.
